

E.B. Horsman & Son

The Electrical Distributor of Choice!

Process Instrumentation, Automation & Controls

Saskatchewan Line Card

E.B. Horsman & Son is a trusted distributor of Automation, Controls & Motion products from Siemens, Banner, Festo, and Rittal in British Columbia, Alberta and Saskatchewan. We have the application and programming experience to shorten your project's lifecycles to help you achieve more in a shorter time period.

On-time quotations
Sales & Technical Support
Product & Programming Training

Platinum member

Automation – PLC, HMI, VFD, Industrial Ethernet, IPC, Software, SCADA, remote IO

Controls – Contactors, overloads, pilot devices, protection relays, starters/soft starters, safety relays, motors, DC power supplies

Instrumentation – Pressure, temperature, flow or level, weighing technology, siemens has the right products for you

Relay and relay systems, timers

Rittal: Industrial cabinets & enclosures, climate control, bus systems, data centers, custom configurations, commercial & industrial boxes.

EPLAN: Electrical design engineering software

Proximity sensors, fieldbus products, industrial cordsets and connectors, intrinsically safe barriers, industrial Ethernet, remote IO

Incremental and absolute encoders for hollow shaft and heavy duty applications

Quick connect cables and connectors, signal distribution

Terminal blocks, heavy duty connectors, PCB connectors, DC power supplies, relays, industrial ethernet, signal conditioners, electronic field bus components

Temperature monitoring, measurement and switches. Flow switches, flow meters, flow transmitters, level gauges, level switches, pressure gauges, sensors, and switches

3D Sensors and Scanners for precision 3D scanning, 3D inspection, 3D modeling and 3D surface metrology

Electrical connectors, electronic connectors, device terminations, network components, cable harnesses

Saskatoon

Platinum member

Photoelectric sensors, Vision systems, wireless IO, Machine safety, industrial LED lighting. industrial grade wireless solutions

eWON: Industrial machine routers, remote connectivity solutions
HMS: Industrial field bus conversion, remote networking solutions

Pneumatics, valve banks, air handling, cylinders, e-drives, custom solutions, and process instruments

Gems Sensors & Controls have the capabilities to manufacture short-runs to mid or high volumes of your custom liquid level, pressure, and flow sensors, as well as switches and solenoid valves.

Pressure and temperature gauges and switches, pressure transmitters and diaphragm seals

World leaders in water analyzers and reagents

Gas and flame detection measurement. Tyco gas includes Scott Safety, Detcon, Simtronics, GMI and Oldham brands.

Temperature Measurement: RTD's, thermocouples, thermowells, low-cost temperature transmitters, temperature controllers, stainless steel connection heads

Shaft speed sensors, shaft speed switches, bearing temperature sensors, belt misalignment devices, vibration switches, position monitors for slide gates and valves, tilt switches, motor speed controllers, and complete hazard monitoring systems for processing plants.

Flow meters: natural gas, compressed air, air, biogas, digester gas, gas emissions, flare gas, vent (flash) gas

Valves, actuators & valve control products including manual ball valves & automated ball valve packages; actuators for the automation of industrial valves.
