

INTEC CONTROLS

AN E.B. HORSMAN & SON COMPANY

Process Instrumentation, Automation, Controls & Motion

Saskatchewan Line Card

Our supplier partnerships, customer service, and expertise in process instrumentation, automation, and industrial control products are the core of what we do. We provide more than products; we strive to develop an understanding of customers' applications to recommend the most suited products and offer service that is second to none.

Controls – Contactors, overloads, pilot devices, protection relays, starters & soft starters, safety relays, power supplies

Automation – PLC, HMI, VFD, Industrial Ethernet, IPC, SCADA, remote IO

Motion – Variable Frequency Drives, Motion Control Drives

Process Measurement – pressure, temperature, flow, level, positioning, weighing, recording and control of virtually every industrial application Made in Canada!

Rittal: Industrial cabinets & enclosures, climate control, bus systems, data centers, custom configurations, commercial & industrial boxes.

ePLAN: Electrical design engineering software

Proximity sensors, fieldbus products, industrial cordsets and connectors, intrinsically safe barriers, Industrial Ethernet, remote IO

Photoelectric sensors, vision systems, wireless IO, machine safety, industrial LED lighting

Terminal blocks, heavy duty connectors, PCB connectors, DC power supplies, relays, industrial ethernet, electronic fieldbus components

Solenoid valves: piloted, force-piloted, and direct-acting

Digital positioner, sensor boxes, puck sensor, namur pilot valve, pneumatic quarter turn actuator, pinch valve, angle seat valve, industrial butterfly valves

Ball valves: NPT, sanitary and ANSI flanged

Temperature Measurement: RTD's, thermocouples, thermowells, low-cost temperature transmitters, temperature controllers, stainless steel connection heads
🇨🇦 Made in Canada!

Shaft speed sensors, shaft speed switches, bearing temperature sensors, belt misalignment devices, vibration switches, position monitors for slide gates and valves, tilt switches, motor speed controllers, and complete hazard monitoring systems for processing plants

Temperature monitoring, measurement and switches. Flow switches, flow meters, flow transmitters, level gauges, level switches, pressure gauges, sensors, and switches

Industrial control or power transformers, line reactors and power transformers, low and medium voltage transformers, machine tool transformers

Flow meters: natural gas, compressed air, air, biogas, digester gas, gas emissions, flare gas, vent (flash) gas
