

Product List

Process Instrumentation

SIEMENS

Siemens offers a best-in-class, comprehensive process instrumentation portfolio for the widest range of applications. Whether you want to measure pressure, temperature, flow or level Siemens has the right products for your industry.

SIEMENS

Siemens Siwarex weighing technology offers complete weighing systems including load cells, static and belt scales and a wide range of electronics designed to complement and enhance your plant automation.

TURCK

Proximity sensors, fieldbus products, industrial cordsets and connectors, intrinsically safe barriers, industrial Ethernet, remote IO

Gems Sensors & Controls offers OEM manufacturing services to meet the quality, quantity, and cost objectives of your product, assembly or system. They have the necessary in-house capabilities to manufacture short-runs to mid or high volumes of your custom liquid level, pressure, and flow sensors, as well as switches and solenoid valves.

THERMO KINETICS

MEASUREMENT & CONTROL

Leaders in the Canadian marketplace in the manufacture of Thermocouples, RTD's, Thermo wells and a wide range of temperature measuring assemblies.

FCI FLUID COMPONENTS INTERNATIONAL LLC

FCI are pioneers in the manufacture and development of thermal dispersion mass flow technology. Their offer includes switches for level, flow, interface and temperature

tyco

Gas & Flame Detection

Tyco Gas and Flame Detection is a global leader in gas and flame detection measurement. They offer enhanced capabilities for deep integrations, and for crafting end-to-end solutions providing better protection for our clients.

Scott Safety, Detcon, Simtronics, GMI and Oldham brands comprise the new Tyco Gas and Flame Detection business.

Hach are world leaders in the manufacture of water analyzers and reagents.

Product List

Process Instrumentation

FESTO

Festo is a worldwide leading supplier of pneumatic and electric automation technologies offering industrial and process automation components and turnkey solutions.

Shaft speed sensors, shaft speed switches, bearing temperature sensors, belt misalignment devices, vibration switches, position monitors for slide gates and valves, tilt switches, motor speed controllers, and complete hazard monitoring systems for processing plants.

Operator Interfaces, Signal Conditioners, Panel Meters for process, current, voltages, Thermocouples, RTD's & Strain Gage. PID controllers.

Banner Sure Cross™ networks offer industrial grade wireless solutions for the most demanding applications. From point to point systems to complex networks Banner Sure Cross™ have the right sensors for secure and reliable communications.

Signal Conditioners, Electronic Field Bus Components.

Safety explosion protection devices and systems for use in the process control applications. Key applications also include fieldbus and industrial network components, lighting surge protection, alarm management and gas analysis.

ASHCROFT®

Ashcroft is a world leader in the design and manufacture of pressure and temperature gauges and switches, pressure transmitters and diaphragm seals. These products are used in a wide spectrum of industrial and commercial applications.

Valves, actuators & valve control products including manual ball valves & automated ball valve packages; actuators for the automation of industrial valves.
