Automation & Controls Division

Product List

Automation:

- Programmable logic Controllers
- Human Machine Interfaces
- Scada
- Networks & Associated Components
- Soft PLC's
- Safety PLC's
- Programming Software and cables.

Controllers and Panel Meters:

- Temperature Controllers
- Process Controllers
- Batch Controllers
- Rate Meters
- Timers
- Counters
- Large Message Displays.

Low Voltage Motor Control:

- Push Buttons
- Relays
- Contactors
- Overloads
- Manual Motor Starters
- DOL Starters
- Fwd /Rev Starters
- Soft Starters
- Variable Speed Drives
- MCC's
- Fusing
- Circuit Breakers
- Disconnect Switches
- Terminal Blocks
- Current & Voltage Monitors
- Programmable Relays

Power Quality Products:

- Load and Line reactors
- Power Factor Correction
- Harmonic Filters
- RFI/EMI Filters
- Uninterruptible Power Supplies
- Power Conditioners.

Sensing Devices:

- Proximity Sensors
- Photo electric Sensors
- Distance Lasers
- Ultrasonic Sensors
- Vision Sensors
- Vision Systems
- Encoders and Rotopulsers

Safety Products:

- Limit Switches
- Emergency Stop Devices
- Safety Modules
- Safety Light Screens
- Fiber Optic Safety Systems.

ISO 9001

SIEMENS

Siemens Controls - IEC and NEMA Rated MCC's, Contactors, Overloads, Pilot Devices, Protection Relays, Limit Switches, Pressure Switches, Circuit Breakers, Starters, Manual Motor Starters, Soft Starters, Variable Frequency Drives, DC Drives, Programmable Relays.

Siemens Automation - PLC's, Human Machine Interfaces, Scada, Soft PLC's, Networks: Profibus Profinet, and Industrial Ethernet, Safety PLC's and Motion Control. Industrial PC's and Monitors. Power Supplies.

From Photoelectric Sensors to Machine Safety Products, Vision Sensors, Precision Measurement, Inspection Products and Wireless Products.

Dynapar and NorthStar Brands. Incremental and Absolute including Hollow Shaft and Heavy Duty Encoders for all applications

Since 1954 Finder has worked exclusively in the field of relays and timers. Their high degree of specialization has produced over 10,000 different products with one of the widest ranges available.

Control Transformers, Power Quality Transformers, Custom/Specialty Transformers, Reactors and DV/DT Filters, Motor Starting Auto Transformers

Operator Interfaces, Digital Products Including: Timers, Counters, Rate Meters, Hour Meters, Magnetic Pickups, and Encoders. Signal Conditioners, Panel Meters for Process, Current, Voltages, Thermocouples, RTD's and Stain Gage. PID

Industrial Enclosures, Climate Control for Enclosures, Busbar Systems, Data Center Solutions, Outdoor Enclosures & Electronic Packaging.

Proximity Sensors, Fieldbus Products, Industrial Cordsets and Connectors, Intrinsic Safety Barriers.

Terminal Blocks, Signal Conditioners, Electronic Field Bus Components, Heavy Duty Connectors.
