Process & Instrumentation Division

Product List

FLOW

Flow Switches

Flow Measurement

- Coriolis Mass Flow (also straight tube)
- Differential Pressure (Venturi, pitot, orifice)
- Electro Magnetic • Flow Conditioners
- Thermal Dispersion Mass Flow
- Ultrasonic Flowmeters for liquids, gases
- Open Channel (Ultrasonic)

LEVEL

Switches

- Float • Capacitance • Vibrating Fork
- Conductive • Thermal Dispersion
- RF Impedance

Continuous

- Magnetic Immersion • Static Pressure
- Submersible Pressure sensors
- Ultrasonic • Guided Wave Radar

PRESSURE

Diaphragm Seals

High Precision Pressure Test Instruments

Pressure Transducers / Switches

Pressure Transmitters (DP & Static)

Pressure Gauges

TEMPERATURE

Switches

Temperature Sensors, Wells

Temperature Indicators

Temperature Controllers

Temperature Transmitters

VALVES

Valves (Automated & Manual)

Actuators & Controls (Pneum & Electric)

I/P Positioners

Regulators, Volume Boosters, Pn. Relays

ANALYTICAL

• Static Pressure

Conductivity/Resistivity

PH/ORP

Gas Detection Systems

GENERAL

AS-i Interface Products

Barriers Intrinsic Safety

Controllers PID, Temperature, Digital

Cordsets Fieldbus & General

Current Transducers

Data Acquisition

• Multiplexing I/O (eg. Modbus)

• Videographic Recorders • Data Loggers

Enclosures, Cabinets, Consoles

Energy Management Products, Power

Meters

Fieldbus Solutions

HART Solutions

Logic / Speed / Direction Monitors

PLC's, Operator Interfaces

Power Supplies

Remote I/O (for Profibus, Modbus etc.)

Sensors (Proximity, Optical, Ultrasonic etc.)

Signal Conditioners

Surge Suppression

SIEMENS

Siemens offers a best-in-class, comprehensive process instrumentation portfolio for the widest range of applications. Whether you want to measure pressure, temperature, flow or level Siemens has the right products for your industry.

ASHCROFT

Ashcroft is a world leader in the design and manufacture of pressure and temperature gauges and switches, pressure transmitters and diaphragm seals. These products are used in a wide spectrum of industrial and commercial applications.

FCI FLUID COMPONENTS INTERNATIONAL LLC

Thermal Dispersion Mass Flow Technology, also switches for flow, level, interface level, temperature

FESTO

Festo is a worldwide leading supplier of pneumatic and electric automation technologies offering industrial and process automation components and turnkey solutions.

red ion

Operator Interfaces, Signal Conditioners, Panel Meters for process, current, voltages, Thermocouples, RTD's & Strain Gauge. PID controllers.

SCOTT SAFETY

Scott manufactures a complete line of portable and fixed detection instruments including toxic and combustible gas monitors and detectors, controllers, and flame detectors.

THERMO KINETICS MEASUREMENT & CONTROL

Thermo Kinetics are leaders in the Canadian marketplace in the manufacture of Thermocouples, RTD's, Thermo wells and a wide range of temperature measuring assemblies.

TRIAQ CONTROLS

Valves, actuators & valve control products including manual ball valves & automated ball valve packages; actuators for the automation of industrial valves.

Weidmüller

Signal Conditioners, Electronic Field Bus Components.

ISO 9001

Where market leaders grow
