

## Narrow Slot Wiring Duct

**Designed to fit the spacing of high-density terminal blocks!**

### Narrow Slot Wiring Duct – PVC

- Smaller, higher number of fingers for more concise harnessing
- Non-slip cover does not slide easily and resists vibration
- Rounded edges keep hands and wires free of abrasion
- V-shaped slot lead-in enables easier and faster wire installation
- Restricted slot design makes sure that wires are held with or without the cover inserted
- Flush cover attaches flush with sidewall for finished look
- Versatile North American and DIN Standard mounting holes enable same duct for multiple applications
- Dual score lines are designed to yield clean breakoffs at the base of the slot and the duct
- Finger design restricts wire from slipping along the edge; creates two or three levels of wire service (see page D24 for illustration)
- Lead-free construction
- Constructed of flame-retardant PVC
