Experience seamless, versatile charging with RVE's Demand Charger Controller (DCC). A comprehensive solution to facilitate charging in multi-family buildings and single-family homes alike, tailored to each of the parties involved, enabling energy to be monitored, controlled, measured and billed.

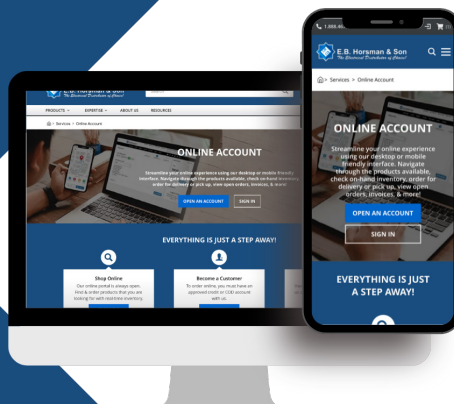

Whatever your loadshare needs, the DIVVEE has you covered. The perfect power upgrade for any home looking to share the load for EV chargers, hot-tubs, heating & AC units, wood shops, and more. Manufacturing facility in Burnaby, BC.

Code Electric Products is Western Canada's premier manufacturer of industrial and commercial electrical enclosures located in Port Coquitlam, BC. They offer load-sharing devices for your home and also work with OEMs in producing their own in-house products.

Enhance property management with Intellimeter's sub-metering systems, offering precise monitoring of Electricity, Water, Gas, and Thermal Energy, including EV charging, revolutionizing operations and enabling real-time data utilization for optimizing infrastructure, enhancing efficiency, and promoting sustainability.
